Scope of Supply

**mtu 16V2000 DS1000
DG16V2000B1N**

Customer: INDEL Power Group LLC

30.11.2023

I. System Description

Product type	DG16V2000B1N
	mtu 16V2000 DS1000
Application Group	3D - Emergency Standby power, IFN

Power as per MTU Sales Program

Power per genset (ISO 8528)	1.000	kWel
Engine speed	1.800	rpm
Intake air temperature	25	°C
Coolant temperature	45	°C
Altitude	100	m

On-site Power

Power per genset (ISO 8528)	1.000	kWel
Engine speed	1.800	rpm
Intake air temperature	25	°C
Coolant temperature	45	°C
Altitude	100	m

Requirements

Frequency	60 Hz
Generator voltage	480 V
EngineType	16V2000G86S

II. Selection Criteria for the Scope of Supply

<i>Criteria</i>	<i>Selection</i>	<i>for Product No.</i>
Application	Emergency Standby (3D)	1,
Frequency	60 Hz	1,
Generator Voltage	480 V	1,
Phase	3 Phase	1,
Unit Specification	UL2200	1,
IBC Seismic Certification	With IBC 50974-01C 2015 2018 2021	1,
HCAI Certification	Without HCAI	1,
Engine Model	16V2000G86S (24volts)	1,
Exhaust Emissions (EPA)	EPA Stationary EMERG T2 (40CFR60)	1,
Radiator Design Temperature	50°C	1,
Temp Rise	130°	1,
Power Output	1000 kW	1,
Full Load Amps	1504	1,
Generator Frame and Wire Qty	LSA 49.1 L11 (6 Wire)	1,
Generator Wire Configuration	Wye	1,
OPU/HSD	Level 3 - Maximum Sound Attenuation	1,
Fuel Tank	Without Fuel Tank	1,
Control panel	With Control Panel	1,
Circuit Breaker Options	Single Circuit Breaker	1,
Breaker Wire Color Scheme	Standard Breaker Wire Color Scheme	1,
Paralleling	No Parallel Operation	1,
Acceptance testing	Factory acceptance	1,
Publications	Standard Publications (English)	1,
Country of Operation	USA / Canada	1,
Emission cert. authority	18 US EPA Agency	1,

III. Scope of Supply

valid for
product no.

1 SYSTEM CONFIGURATION

1,

1.2 Cooling Package

1,

50 Deg C Cooling System

1,

- Closed loop, liquid cooled, with radiator factory mounted on engine-generator set mounting frame and integral engine-driven coolant pump

1.3 Circuit Breaker

1.5 Genset Enclosure

1,

Genset Enclosure S2000

1,

Weather-protective enclosure constructed of heavy gauge steel or aluminum with fixed stormproof panels designed for either 130 mph or 190 mph wind load rating.

Enclosure consists of:

- Bolted and welded construction
- Unit-mounted internal silencer included
- Hinged, lockable double-doors with door restraints provide access on both sides of enclosure

Aluminum Enclosure Type

1,

130mph Wind Rated Aluminum

1,

Level 3 Enclosure 130mph

1,

Weather-protective enclosure constructed of heavy gauge steel or aluminum with fixed stormproof panels designed for 130 mph wind load rating with additional air intake baffles and exhaust scoop redirecting noise and air flow upward.

Enclosure consists of:

- Bolted and welded construction
- Additional air intake baffles
- Exhaust scoop
- UL94 HF-1 compliant , 1.5" thick sound attenuated foam insulation installed inside enclosure walls.
- Unit-mounted internal silencer included
- Hinged, lockable double-doors access with door restraints located on both sides of enclosure

Sound Attenuation Kit

		valid for product no.
Interior Enclosure Lighting:		1,
<ul style="list-style-type: none">Interior enclosure lighting is designed to automatically use either AC or DC power. The lights will use the DC supply (genset batteries) if no AC supply is available. The lights may be powered via AC supply if connected by the customer.		
Note - This option will be factory-wired to the distribution panel (if selected)		1,
Enclosure Heater: 120V 1PH 1500W with Thermostat		1,
Note - This option will be factory-wired to the distribution panel (if selected)		1,
Motorized Intake Louver (Aluminum)		1,
Note - This option will be factory-wired to the distribution panel (if selected)		1,
1.6	Vibration Isolation	1,
	X54599100330 Pad Isolators	1,
	<ul style="list-style-type: none">1/4-inch thick elastomeric pad in rectangular shape placed under the base frame at each of the pre-drilled isolator mounting holes.	
2	ENGINE CONFIGURATION	1,
2.1	Engine System	1,
	Oil Drain	1,
	Note Emission Compliance: The engines and/or systems, may only be certified to comply with the required country or region specific emission regulations. Where applicable, the engines and/or systems are only certified to those specific emission regulations/standards which are clearly stated in the respective RRPS/MTU defined technical specifications. It is the customer's sole responsibility to ensure that the export/import, installation and use of the engine and/or system complies with the applicable emissions regulations in the country or region where the engine and/or system will be used.	1,
2.2	Exhaust System	1,
	Internal Silencer 14"	1,

(4) Relay Option

The 4-relay board includes (4) 10 amp form C relays customizable for user defined functionality requirements. Standard outputs are as follows:

valid for
product no.

1. Engine Run
2. Engine Run
3. Engine Fail
4. Minor Alarm

Remote Emergency Stop Break Glass Station

1,

Analog Expansion Module (AEM)

1,

- The AEM is a remote auxiliary device that provides additional MGC analog inputs and outputs.

Contact Expansion Module (CEM)

1,

- The CEM is a remote device that provides additional MGC contact inputs and outputs giving the user flexibility to use the same model MGC generator set controller for simple or more complicated applications that require contact functionality or duplication of contacts for remote annunciation.

RDP-110 Annunciator Panel

1,

- The RDP-110 is a remote annunciation device used in conjunction with the MGC family of digital generator set controllers to provide remote annunciation of the emergency standby generator system. This panel allows for two programmable alarms, two programmable pre-alarms, and is compatible with NFPA 110. The MGC detects an alarm or pre-alarm condition and communicates via RS-485 to the RDP-110.
- Unit can be flush or surface mounted.

1 Remote Annunciator

1,

MGC-3000 Series

1,

- Rolls Royce Power Systems Generator Set Controllers (MGC Series) are rugged, reliable, all-in-one digital generator set control and load share systems. The MGC-3000 Series is designed to be a high end controller that is well suited for mains fail, paralleled units, and systems with multiple buses. The MGC-3000 Series has all of the necessary items for complete generator set control, protection, and metering with a massive, but easy-to-use, programmable logic system.

No Parallel Operation
